

### Characteristic

Adopt imported tensile strength material, shielded with super-soft PVC, so it has a sound rent and anti-interference performance

### Instructions

- Twisted multiple strands
- Copper line as internal conductor
- Solid polyvinyl or PVC insulated
- Enhanced cable tensile strength steel wire and fibre
- Aluminum shielded outside
- Soft bare copper line or timed soft copper braid shielded
- Soft PVC jacket
- Keeping working temperature under 70°C for ling-range operation
- Package length:200m/roll,300m/roll

### Outer dimension

Style	Conductor No./mm	Insulation(mm)		Outer conductor		Jacket(mm)	
		Material	Dia.	Pick/in	Braiding	Material	Dia.
SVXV 75-4	28/0.1+3	1.15	3.5±0.2	Standard shield	128 Fibre	0.8	6.0±0.2

### Application

Video transmission and signal control for lift monitor system
